8' Dulciana Treble (middle C)

8' Dulciana Bass

Octave Coupler

Pedal: 27 notes

Manual to Pedal Coupler

This unique pipe organ has been in the shop of David Wallace & Co. for forty years as a practice organ, a loaner to churches during organ projects and has traveled to numerous trade shows and musical events.

Some restorative work has been done. It presently has a 4' Octave in place of the 8' Dulciana. The Dulciana is in storage. The organ can be hand pumped. It has a full bold sound and would work in a chapel setting with the return of the Dulciana.

13' 3" tall, 6' 2" wide, 2' 1" deep (plus 36" for pedal board and bench)

The organ is available fully restored within the continental US for \$49,000.
