Swell to Pedal

Dimensions:

20' 6" wide

13' 5" deep

25' (+/-) high

(Top of the swell box is 21' high)

Double rise reservoir with feeder bellows.

The organ was built with slider windchests and tubular pneumatic key and stop action. This instrument is an excellent candidate for conversion to state of the art electric key and stop action on slider windchests. The organ has a grand turn of the 20th Century sound that filled its space in the Bangor church very well. The specification offers a wide palette of colors to the organist.

Original blower not saved. New blower needed

Asking price is \$35,000.
