Pedal: 30 notes
16' Bourdon
8' Flute (Bdn ext.)

Swell to Great
Swell to Pedal
Great to Pedal

Wind (Blower switch)

This planned new organ will be a fully mechanical instrument for both key and stop actions with some recycled historic parts. The pipework will be a combination of appropriately scaled ranks from Hook, Stevens and Johnson with new pipework as necessary.

The anticipated dimensions are 66" wide, 54" deep and 9' high. The casework will be new and will be styled to duplicate and reuse the Greek revival towers and cornices of an early case by Wm B. D. Simmons of Boston. The final design will be based on historic lines and will be determined during the planning process.

Cost Installed: \$100,000.

Old Simmons case in storage.

Approximate appearance of the reconstructed case.
